1	The previous season was included in fees because the dad volunteered his time.	1/29/2021 8:00 AM
2	The skill session we do run is just before the start of the year and is called a conditioning camp it is run by local hockey volunteers and coaches .. The cost we charge for it goes towards operating costs for the year it is a fundraiser.	1/28/2021 3:29 PM
3	We have done it both ways. We have done a kick start to the year where that was included in fees, but we dont have it as a re-occurring thing that is build into fees since money can be an issue for some.	1/28/2021 10:55 AM

8	KMH currently has Kent Woods coming to Kyle for 10 sessions re: PowerSkating & Skills January 15th - March 5th, 2021. He offered to work with all age groups (U7-U15); Fees for sessions were separate and KMH covered 50% of the cost to support player development. Trach PowerSkating & Skills was hired by KMH and scheduled to come to Kyle Dec 4-6th, 2020. However, this winter camp was cancelled prior to SHA announcement on November 27, 2020 due to low enrollment. Camp was offered to U9,U11 & U13. Organizing Skill Development camps prior to the season starting is difficult in Kyle because the ice is not ready until mid-October or beginning of November; this poses a problem with limited practices prior to scheduled FVHL league games.	1/24/2021 4:47 PM

He came three times per week to work on things with the kids(usually does dryland too but wasnt workable this year of course) and he did all kind of skills including some goalie stuff and this was included in the membership fees so everyone got to participate at no cost. We also do a Goalie Clinic that happens over three weekends and MMHA pays a portion for any local goalies who want to participate and parents pay a small fee too. Unfortunately with the Covid-19 protocols in place, it went from amalgamated groups (based mainly on ages & abilities) to being based solely on teams which made it more difficult to run with only 8 players from the same team being required to participate in each designated ice time.	1/15/2021 2:44 PM
